**WHISTLER BLACKCOMB**  
WHISTLER BLACKCOMB

**Whistler & Blackcomb Mountains**

Located approximately 72 miles north of Vancouver, Whistler Blackcomb boasts two enormous mountains and a whopping 7,071 acres of ski terrain. Each of these mountains offers a drop of nearly one vertical mile, and more than 200 amazing trails span their combined slopes. This is the only place in North America where you can ski on a glacier and there are **three** to choose from! Thirty lifts compose one of the most advanced systems in the industry, allowing you explore this ski resort more efficiently. And despite the low base altitude, Whistler receives an excess of 30 annual feet of snow so you will breathe easier while tackling a mountain of amazing powder.

**Whistler Village**

Modeled after a European ski community, Whistler ranks as one of the finest ski towns on the continent. From candle-lit bistros to pulse-pounding clubs to world-class shopping, Whistler Village has it. The village was designed to be centralized around the mountain, so as a result, most everything is at least walking distance to the ski slopes and the resort center. And no matter what you decide to do, the infamously friendly Canadian hospitality will be there to greet you.
